

Advanced Project Management

Domestic Fees

\$1195 + GST

Duration

2 days

nziht.co.nz

Projects are risky endeavors, and sometimes they fail. Building on the popular course Successful Project Management, this course is designed to help project managers identify problems with existing projects and turn them around quickly.

Based on many years of experience, we'll show you how to assess an existing project and the project team, and make small practical changes that can have a huge impact on results. We'll help you learn the approach effortlessly in our highly interactive two-day course.

PRE-COURSE WORK

Attendees will complete an online assessment of their emotional intelligence prior to the course.

Topics include

- Project diagnostic
- Improving leadership
- Improving commitment
- Improving team work
- Problem solving
- Alternative ways of working
- Implementing successful changes

At the end of the course participants will have the learned:

- How to evaluate a project
- How to improve their own leadership style
- How to improve collaboration
- How to solve problems permanently
- How to implement change successfully

Who should attend

Everyone who wants to turn around a failing project or be more successful in running projects.

Pre-Course work - Attendees will complete an online assessment of their emotional intelligence prior to the course.

Additional information

Cost includes a pre-course assessment of your emotional intelligence.

Note: if the participant withdraws or changes after the on-line profile tool has been completed, the additional cost of this will be charged
